### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Frank DiGiglio on 16 October 2004.

The application has been amended as follows:

CANCEL non-elected claims 10-13, without prejudice.

Specification, page 24, line 25, delete "referring to the figure" and substitute therefor: "Brief Description of the Drawings".

The following is an examiner's statement of reasons for allowance:

Upon further consideration, the specification clearly defines the structure of  $\omega$ -conotoxins on page 1, lines 16-23. There is no evidence in the prior art of even a single  $\omega$ -conotoxin that contains the sequence SGTVR in the 4<sup>th</sup> loop between cysteine residues 5 and 6. Applicants have described a large number of such peptides that appear specific for calcium channels.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
